Mitchell Berg

Arlington Heights, IL | mitchell@mitchellberg.org | github.com/Naftaliro | linkedin.com/in/mitchellryanberg | mitchellberg.org

Professional Summary

Linux-focused IT support professional with 3+ years of experience leading technical operations, resolving complex OS, hardware, software, and connectivity issues, and automating workflows with Bash and Python. Level II Support at Ace Computers, focused on custom-built systems and HPC environments; continuing LPIC-1 study.

Technical Skills

- **Operating Systems**: Linux (Fedora, Arch, Debian/Ubuntu), Windows, macOS
- **Systems & Support**: SSH, VMware, VirtualBox, Docker, endpoint management, device recovery, technical documentation
- **Automation & Networking**: Bash, Python, PowerShell, Git, TCP/IP, VPN (OpenVPN, WireGuard), firewall troubleshooting

Professional Experience

Level II Support Aug 2026 — Present
Ace Computers *Des Plaines, IL*

- Tier-2 technical support for custom-built systems and HPC environments: diagnostics, escalation handling, and Linux/Windows system support.

Manager & Lead Technician Dec 2022 — Jul 2026
uBreakiFix by Asurion *Niles, IL*

- Led 3–5 technicians in a 15–20 repair-per-day environment; primary escalation for complex OS, hardware, and software issues across Windows, macOS, iOS, and Android.
- Developed Python and Bash automations for reporting and inventory workflows; built structured onboarding programs that standardized repair quality and improved ramp-up.
- Administered MDM and customer-owned device-recovery workflows; performed OS-level diagnostics involving boot failures, filesystems, driver conflicts, and system recovery.
- Resolved connectivity problems involving VPN configuration, firewall behavior, and protocol-level diagnostics.

Sales Representative Sep 2018 — Dec 2021
Preferred Vendors Inc *Schaumburg, IL*

- Managed territory sales through CRM systems and structured outreach, building strong technical communication skills across in-person and remote client interactions.

Selected Projects

Maintainer, Knox Launcher (formerly PZ Server Manager) github.com/Naftaliro/pz-server-manager

- Windows app for playing Project Zomboid with friends: hosts a server or joins a friend's with their exact mods.

Developer, Upright Alarm upright.3hz.dev

- Free iOS alarm clock on the App Store since Nov 2026, with wake-up challenges and optional buddy alerts.

Maintainer, first-steps github.com/Naftaliro/first-steps

- GTK4 + LibAdwaita onboarding wizard for Zorin OS 18 and Ubuntu-based systems; guides new Linux users through setup without a terminal.

Author, Kestrel Catppuccin Mocha addons.mozilla.org/en-US/firefox/addon/kestrel-catppuccin-mocha

- Catppuccin Mocha theme for Firefox, published on addons.mozilla.org.

Certifications & Recognition

- **Linux Professional Institute Certification (LPIC-1)**: in progress
- **Evolve Security Certified Professional (ESCP)**: Evolve Security Academy, Chicago; 400+ hours; 2022–Present
- **PicoCTF 2019**: Top 30 Global Finish; reverse engineering, cryptography, web exploitation, and binary analysis
